

AI LITERACY FOR EDUCATORS

PROMPTING AND DIFFERENTIATION GUIDE

HOW TO BUILD A PROMPT

Effective prompts are specific and clear. Use this 3-Step approach: **Role, Task, Format**

1 ROLE

Tell the AI who to act as.

2 TASK

Say what you want it to do, and include any learning goals or student needs.

3 FORMAT

Tell the AI how to organize the response.

Full Example Prompt:

Act as a 9th-grade biology teacher with a student who learns best through visuals. Find online resources to help visual learners understand natural selection. List 3–5 resources with a short description of each.

SAMPLE EDUCATIONAL PROMPTS

LESSON REVIEW

Improve an Existing Lesson

Prompt: “Act as an instructional coach. Review my lesson and suggest 3 ways to increase student engagement. Use a bulleted list.”

COMMUNICATION WITH FAMILIES

Refine a message to families

Prompt: “Act as a school communications specialist. Review my family update for clarity and tone. Provide suggested revisions in a table.”

ASSESSMENT REVIEW

Evaluate an existing assessment

Prompt: “Act as an assessment specialist. Review my quiz for clarity and alignment with the learning objectives. List any recommended changes.”

PROFESSIONAL LEARNING

Strengthen a professional learning activity

Prompt: “Act as a professional learning coach. Review my workshop activity and suggest ways to increase participant interaction. Use a short checklist.”

AI BENEFITS

DIFFERENTIATE QUICKLY

Adjust reading levels, formats, or tasks with less prep.

SAVE PLANNING TIME

Generate rubrics, summaries, and materials quickly.

BOOST CREATIVITY

Get fresh ideas for lessons and student prompts.

CONSIDERATIONS

FOCUS ON RELATIONSHIPS

*Human trust and empathy come first.
AI helps, not replaces.*

PROMOTE CRITICAL THINKING

Use AI for support, not answers.

PROTECT PRIVACY

Don't enter names, grades, or personal info.
